

WILLIAM D. SHEPLER, P.E. DBIA

President and CEO of PMSI*inc*

Project Role:

Principal in Charge of Planning and Management

Professional Registration / Qualifications:

Registered Professional Engineer

State of Indiana (#17101)

Professional Experience:

William (Bill) Shepler is a Registered Engineer whose career as a planner, designer, contractor and manager has provided him with a wide range of extensive experience in developing, designing, financing, managing, constructing and closing out a multitude of public and privately owned projects. He utilizes his unique management skills to analyze the existing conditions, to evaluate the project needs and to sort through the conflicting points of view in order to firstly, establish a foundation that defines the criteria for the project's program, design, budget, schedule and proforma and secondly, to forge methods that delivers the desired results.

Bill's entire professional career has been focused on serving project owners by providing them with the assurance that their needs are addressed, their interests are protected and their project risks are being managed. His planning and management skills and procedures have led to many successful projects. Bill's projects are always cost effective and completed in a timely manner, and his clients are satisfied.

Bill has extensive planning, development, management and implantation experience of projects ranging from governmental, justice, educational, medical, religious, corporate and commercial facilities.

As the President and CEO of PMSI*inc*, he takes pride in the professionalism, integrity and success that PMSI brings to a project and to his client's capital investments.
